

AKRON BOROUGH NEWSLETTER

STORMWATER INFORMATION

Stormwater runoff is generated from rain and snowmelt events that flow over land or impervious surfaces, such as paved streets, parking lots, and building rooftops, and does not soak into the ground.

The runoff picks up pollutants like trash, chemicals, oils, and dirt/sediment that can harm our rivers, streams, lakes, and coastal waters.

Because stormwater can flow over hard surfaces directly into storm drains, there is no opportunity for soil and plants or a water treatment facility to filter out pollutants.

How can you help reduce pollutants in stormwater?

Practice healthy household habits and share these habits with your neighbors:

In the garage or shed:

Check your car, boat, motorcycle, lawn mower, tiller and other machinery and equipment for leaks and spills. Make repairs as soon as possible and clean up spilled fluids with an absorbent material. Dispose of the material in the trash. Never rinse spills into a storm drain or over a hard surface. Recycle used oil and other automotive fluids at participating service stations. Never dump these chemicals down the storm drain or dispose of them in your trash.

Vehicle Care:

Use a commercial car wash if available. If washing at home, move the car to the lawn or an unpaved surface to minimize the amount of dirty, soapy water flowing into the storm drain.

Pet Care:

Always pick up waste and dispose of it properly. Flushing pet waste is the best method of disposal.

COUNCIL MEETINGS-

STREET SWEEPING

Spring Street Sweeping is scheduled to take place April 22nd and April 23rd beginning at 7:00 am both days. The East side of 272 will be swept on April 17th and the West side on April 18th. When possible please remove parked cars from streets on the applicable date of sweeping. In addition, a reminder regarding tree limb height. To save time and reassure safety, please make sure any tree limbs in front of your properties are at least 12 feet above sidewalks. This will assure that your street will get swept and emergency vehicles can travel the streets without accident or injury.

HOLIDAYS

Akron Borough Office will be closed Monday February 15th for President's Day.

SNOW AND ICE REMOVAL

As a reminder sidewalks should be cleared with at least a 2 foot pathway within 24 hours **after** the snowfall stops. Avoid additional work. Public Works plow operators have been directed to plow as close to curblines as possible. Although

the drivers do their best to minimize additional snow rolling back onto sidewalks, in some cases it's unavoidable. Give the Borough time to open the streets before clearing your sidewalk. Again you have 24 hrs after the snow has completely stopped. Also snow may not be thrown onto the street. If there is an intersection located at your property, please leave a path so school children and people walking have access to the crosswalk. In the event they are calling for a heavy snow, please remove your vehicles from the street to allow our snowplows to do a better job at clearing the streets.

WATER & SEWER BILLING NEWS

You need to use PO Box 130 when mailing items to the Borough Hall.

Also, for non-payment of a water and sewer bill, a second notice is sent 15 days after the due date giving the resident an additional 10 days to pay the bill before service is terminated. Please pay attention to your notices to avoid this happening.

CHANGING METERS

Akron Borough has implemented a five –year program updating our current water meters to radio read meters. The new meters will be read with a radio frequency, which means the meter reader can read an entire street in the time it currently takes to read one or two houses. The Borough will do its best to systematically change the meters. **When you receive your letter with your meter change appointment, please do your best to make this time available for us to change the meter.**
